

Membership Information

Each of the hospitals and the surgery center maintain threshold qualifications for membership. Please refer to the description of these qualifications listed below. In addition to meeting the threshold qualifications (as outlined in the Medical Staff Bylaws, Article II, Part A), applicants must meet the following conditions:

1. MediCorp Health System must offer services in your area of clinical expertise, and
2. The service must be classified as “open” for release of applications on the date your completed application forms are received.

In order to promote quality and efficient patient care, the MediCorp Health System Board of Trustees has determined that some medical services will be delivered by medical practices designated by the Board as “preferred providers”. You must be joining the practice of the currently designated preferred provider to be considered for appointment in that specialty.

MediCorp Health System

Available Services and Application Release Status

A list of major services that the Board of Trustees has deemed “Preferred Provider” and “Closed” follows. Please review this list closely.

Notes:

- **Preferred Provider** – In order to promote quality of patient care and orderly efficient operation of the Health System, the Board has designated that some services will be provided only by designated “preferred providers”. If you are interested in a “preferred provider” service, an application will be released only after it has been verified that you will be associated with the Board approved preferred provider.
- **Closed Status** – The Board, through the staff development process, has determined that the service is closed to release of applications.

1. Diagnostic and Support Services Department

- Anesthesia – Preferred Provider
- Emergency Medicine – Preferred Provider
- Pathology – Preferred Provider
- Radiology – Preferred Provider

2. Surgical Services Department

- Cardio-Thoracic – Preferred Provider
- Neurosurgery – Closed
- Orthopedic – Open with exception of C-Spine and lumbar disc privileges restricted to currently privileged providers
